

Environmental Policy

Navistar Mercosul is committed to adhering to high standards of environmental quality, to principles of sustainable development, and to providing a workplace that protects the health and safety of our employees and the communities surrounding our facilities.

To carry out these commitments, in a technically sound and cost-effective manner, it is the policy of Navistar Mercosul:

- **Compliance:** conduct all operations in compliance with all applicable environmental laws and regulations.
- **Environmentally friendly facilities:** design, construct and operate our facilities in a manner that protects the health and safety of our employees, individuals in the neighboring communities and the environment.
- **Continual improvement:** implement programs for self-monitoring, assessing and reporting to ensure compliance and continual improvement in the pursuit of environmental goals.
- **Pollution preventive:** exercise innovation in optimizing product life-cycle design in our manufacturing processes and our end product to maximize recycling and minimize or prevent the generation of waste and the discharge of contaminants into the environment.
- **Environmental involvement:** ensure, through management support and education, that employees understand and accept responsibility for incorporating environmental quality in their conduct of business.
- **Government partnering:** work with all levels of government toward the development and implementation of equitable and effective environmental laws, rules, regulations and policies.
- **Environmental management programs:** establish and maintain operating procedures and programs to implement our corporate environmental protection policy.
